

# MKT MACHINING

## *Scope Level Instructions*

**Thanks for purchasing our product! Reviews and customer satisfaction are extremely important to us, and we truly appreciate when someone takes the time to leave an Amazon or website rating. Amazon in particular stresses a high priority on customer feedback.**

**While there are several methods to install a scope level, below is our preference:**

- 1) Loosen scope rings slightly and get comfortable behind your rifle. A level rifle is not imperative, but a level scope is. Whatever feels best is more important for this step.**
- 2) Use a plumb line or level down range, set crosshairs to match, and tighten rings.**
- 3) Install scope level, set level to match crosshairs and plumb line/downrange level.**
- 4) Tighten bolt by hand only until it grips sufficiently. DO NOT OVERTIGHTEN.**
